EXPLANATION OF RELEVANCE

References AA, IJ, and AK were identified in the International Search Report. References AB and AC represent related U.S. Patents. Reference AR is a German article, but its relevance was adequately discussed in the specification. References AL-AN and AQ present background information. English language translations of the abstracts have been provided, and a full translation for any of these references will be produced for the Examiner upon request.

The filing of the present Information Disclosure Statement is not to be construed as a representation that a search has been made, and is not to be construed as an admission that the information cited in the present Information Disclosure Statement is, or is considered to be, material to patentability as defined in 37 C.F.R. §1.56(b).

The above citation of prior art is not a representation that such art constitutes a complete or exhaustive listing of all pertinent prior art, nor that it necessarily includes the closest or most relevant art. The aforementioned citation comprises a voluntary citation of prior art of which applicant and his attorney are presently aware and is not intended to serve as a substitute for the Examiner's own search.
